SUMMARY

I am a skilled web developer with experience in **WordPress** and **PHP**. I create and manage websites using custom themes, plugin edits, and frameworks like **Laravel**. I work with HTML, CSS, JavaScript, and MySQL to build responsive, user-friendly, and fast-loading websites. I am also familiar with tools such as **Elementor** and **WPBakery**. I enjoy solving problems, fixing bugs, and writing clean, efficient code that meets client needs.
